

CONDITIONS OF THE 1% PROMOTION ON MUTUAL FUNDS & MEMANAGED

All MeDirect clients who invest in mutual funds and/or a MeManaged portfolio with MeDirect during the period of the 1% promotion are eligible for a 1% bonus on the net invested amount. This bonus is limited to €2,500 per client. In the case of a joint account, MeDirect attributes 50% of the net invested amount to each co-holder. To receive the bonus, the client must meet all the conditions and requirements stipulated in these Terms and Conditions.

DURATION

This promotion runs from February 13, 2025, to March 31, 2025, inclusive. MeDirect reserves the right to modify the details and/or duration of this promotion at any time. Any changes to these Terms and Conditions will always be announced on the MeDirect website (www.medirect.be).

STEPS TO FOLLOW

The customer is eligible for the 1% bonus if he/she invests in mutual funds and/or in MeManaged during the period of the 1% promotion.

To be eligible for the 'MeManaged' bonus, the client should ...

1. ... actually, and legally complete all steps to create a MeManaged portfolio and invest an initial amount of at least €5,000 during the 1% promotion period, and/or;
2. ... complete one or more of the following actions on the MeDirect platform during the period of the 1% promotion:
 - a. make additional deposits, and/or;
 - b. add a monthly contribution of at least €100.

To be eligible for the bonus on mutual funds, the client should ...

1. ... open a free securities account (if they have not already done so);
2. ... invest in one or more mutual funds during the period of the 1% promotion.
3. ... and keep the mutual funds on the same securities account throughout the promotion period.

BONUS CALCULATION

To be eligible for the bonus, the client must have placed their mutual fund buy orders and/or invested in MeManaged by the last day of the 1% promotion period at the latest. On April 10, 2025, MeDirect will calculate the total value of all eligible investments made by the client during the 1% promotion period.

To calculate the 1% bonus, MeDirect will determine the net invested amount, which is the difference between the 'subscription value' (the value of eligible mutual funds subscribed to in the client's securities account and the value of all investments in MeManaged during the promotion period) and the 'redemption value' (the total value of all mutual funds sold or transferred to another financial

institution, and the assets withdrawn from MeManaged during the promotion period) in mutual funds and MeManaged during the promotion period. All eligible investments made by the client should remain in the same securities account for the total duration of the promotion.

The bonus equals 1% of the net invested amount in MeManaged and in mutual funds and is capped at €2,500 per client. In the case of a joint account, both co-holders will receive a bonus, up to a total of €5,000 (€2,500 each).

To calculate the bonus, transactions denominated in currencies other than the euro will be converted into euros using the exchange rates prevailing on the transaction date (for subscriptions and redemptions). The bonus will be paid in euros.

The bonus will be deposited into the client's current account no later than April 30, 2025.

BONUS PAYMENT

When the client invests **solely through their individual securities account**, the bonus will be deposited into their individual current account.

When the client invests **through their joint securities account** and each account holder has an individual current account, MeDirect attributes 50% of the net invested amount to each co-holder. Therefore, the bonus will be deposited into their individual current accounts.

When the client invests **through their joint securities account and at least one of the two account holders does not have an individual current account**, the bonus will be deposited into their joint current account.
